## ABOUT ME

A dedicated Software Engineer with a strong passion for contributing to the ever-evolving landscape of technological advancements. Known for being approachable and friendly, fostering a positive and collaborative environment while maintaining a professional demeanour when necessary.

## PROJECTS

- **ET-YACHTING**  
ALPHALINK GMBH  
ET-Yachting: A Next.js application with RestAPI integration, designed to enhance yacht experiences along Croatia's coast. The app offers users seamless access to premium yacht services, ensuring worry-free and extraordinary adventures. It combines modern web technologies with a focus on delivering an exceptional maritime experience.
- **PREHAB APP**  
STAGE CODING  
A Physical Therapy app developed in Flutter with Firebase integration, offering personalized programs and workouts that empower users to take control of their health. The app includes features such as user authentication, data storage, real-time synchronization of exercises, and notifications, providing a comprehensive tool for managing and improving physical well-being.

### RK ČELIK AD SOLUTIONS

A platform for RK Čelik, built with the T3 Stack, featuring a custom CMS, Stripe integration, and a responsive frontend. It simplifies club management by offering secure subscriptions, easy content updates, and real-time information on schedules and news. Through Stripe, fans and sponsors can contribute seamlessly, supporting RK Čelik's community engagement and growth.

### USE FUZE STAGE CODING

A business management app developed with Flutter and RestAPI integration, designed to help users keep their business, orders, and jobs organized. The app enables the creation of estimates and invoices directly from a mobile device, streamlining business operations and improving efficiency.
